

## A snapshot about - **GRAPHIC EDITOR**

# Premium Marketing Tools To Gain You The Edge!

With **Graphic Editor** you can find millions  
of non copyright images from the  
internet **PLUS** edit them!

## Now can that make your life easier?

Graphic Editor has the ability to enter a keyword to find copyright images for you to use on your website that relates to your products and services.

So jazzing up your website with images that won't cost you a small fortune is so much easier and far less time consuming. Not only does it find these non copyright images, it allows you to edit, create and re-touch photos without ever leaving your site. The Graphic Editor is built into the back end of your website!

### Add images to any Wordpress Built Website

Because the software is built into the backend of your website you don't have to purchase expensive software.

### FINDS 2Million Images

That's right! Graphic Editor has the ability to find 2 million + images INSTANTLY for your site.

Is that a benefit for you and your products and services? Have you always struggled to find images? Not any more!

### Newbie Friendly!

Graphic Editor has been fully tested and user friendly so you can become an awesome image editor without the technical skills required. Spend seconds not hours searching and editing to make your site look more appealing.

### Low Cost!

No need to hire virtual assistance, image editors or graphics people to supply, find and edit images.

Also adds Instagram like Filters to all your images in ONE CLICK!

Now you have the ability to find images on the worldwide web without the risk of using copyright photos. PLUS you can edit, enhance and add them to your site easily.
